Exams. There will be two midterm in-class exams, which are tentatively scheduled for the weeks of February 16 and April 6. The midterm exams may be rescheduled to slightly different weeks. The final exam will take place on Thursday, May 7 from 10:00 to 11:50 am. No make-up midterm or final exams will be given, and only written official university excuses will be accepted as reasons for missing an exam. In-class quizzes may be given on selected days. They will be announced in class in advance.

Homework. Homework will be assigned weekly and will usually be due on Tuesday in class. *No late homework will be accepted!* I will also suggest you attempt a number of other problems in each section, which you need not turn in.

Attendance and Grading. Attendance of lectures is mandatory. Your grade will be based on homework and quizzes, the midterm exams and the final exam. Homework and quizzes will count for 15% of your final grade, each midterm will count for 25%, and the final exam will count for 35%. An overall score of at least 90% will receive an A, a score of at least 80% will guarantee a B, a score of at least 70% will guarantee a C, while getting at least 60% will ensure passing. Depending on the score distribution, these cutoffs may be lowered. Some discretion may be used in deciding borderline cases.

Topics to be covered. This semester we will cover chapters 13 and 15-17 of the text along with some supplementary material as time permits.

Academic Dishonesty. Oklahoma State University Academic Integrity Policy states in part: “Oklahoma State University is committed to the maintenance of the highest standards of integrity and ethical conduct of its members. This level of ethical behavior and integrity will be maintained in this course. Participating in a behavior that violates academic integrity (e.g., unauthorized collaboration, plagiarism, multiple submissions, cheating on examinations, fabricating information, helping another person cheat, unauthorized advance access to examinations altering or destroying the work of others, and fraudulently altering academic records) will result in your being sanctioned.”

Free Tutoring Assistance. The Mathematics Learning Center (MLRC) can provide tutoring and other services for this and similar mathematics courses. It is located in the 4th floor of the classroom building and you should check-in for tutoring in 420 CLB. Its hours of operation are Monday, Tuesday and Thursday from 12 noon to 9:00 pm, on Wednesday from 12 noon to 6:00 pm, and on Friday from 12 noon to 4:00 pm.
